

# CAREERS IN THE ARTS

## Creative Career Encounters

## Discover your potential in a Career in the Arts

Careers in the Arts is an exciting project brought to you by The Watermill Theatre and Corn Exchange Newbury, that aims to inspire and educate young people in all the possibilities a career in the arts can bring.

Navigating your career journey is daunting at any age, but especially for a young person who does not know what's out there for them or what they want to do!

Our Creative Career Encounters workshops give direct insight into the industry, focussing on specific career paths within each session and allowing young people to learn about and become inspired by the opportunities available within the arts.

### WHAT WE OFFER

- A selection of up to 5 x 1-hour workshops with an industry professional.
- A consultation with the project team to ensure we deliver workshops that are tailored to your students' needs and ambitions

There is no cost for these workshops due to the generous funding from Greenham Trust.

Here is a list of some of the workshops available:

Costume Design  
Set Design  
Press and Marketing  
Project Management  
Props Making

For more information or to book, please contact the Project Lead, Angharad Warren
